Smart Computing Solutions is primarily an I.T. solutions and support provider for small, medium and micro enterprises. With a host of services to offer our clients, Taylor made solutions provide a realistic and cost effective package for individual companies. Small or large we can design and implement or upgrade existing infrastructure for reliability and scalability, there by optimizing your working environment and minimizing down time.

Customizing rather than accepting the 'norm' is what we do. We realize, that with limited budget's these days, the need for developing specifically designed solutions is imperative to a company's overall well being. With a wide range of solutions including, server and desktop support, time and attendance solutions, networking solutions, and printing solutions we can offer our clients a unique unlimited value added solution in the I.T. infrastructure.

At Smart Computing Solutions it is all about Service! We pride ourselves in having the accessibility and flexibility to offer our Customers prompt and efficient service at all times.
